PROFESSIONAL SUMMARY

Customer-facing operations leader with experience across Toyota service operations, CRM rebuilds, cash-flow management, mortgage origination, and applied AI tooling. Combines direct customer communication with systems thinking, measurable execution, and a bias toward evidence over assumptions.

SELECTED RESULTS

OVER \$1M	Customer-pay labor and parts revenue generated at Hendrick Toyota Merriam since July 2025.
#2 OF 17	Recorded effective-labor-rate ranking, with a \$123.35 ELR benchmark.
40+ ACCOUNTS	CRM accounts built and migrated into HubSpot during an operations rebuild.
\$1M+ EXPOSURE	Accounts receivable and payable exposure managed in logistics operations.

EXPERIENCE

HENDRICK TOYOTA MERRIAM

Assistant Service Drive Manager / Service Advisor | July 2025 - Present

- Generated over \$1M in customer-pay labor and parts revenue while managing high-volume service-lane execution.
- Translated inspections and technical findings into clear repair priorities, customer decisions, and consistent follow-up.
- Applied process discipline to advisor workflow, customer communication, and revenue-quality execution.

EFD LOGISTICS

Consultant / Account Manager

- Rebuilt CRM structure and operating workflows while managing more than \$1M in AR/AP exposure.
- Built and migrated more than 40 accounts into HubSpot to improve visibility and follow-through.

MORTGAGE LENDING

Loan Origination

- Managed borrower qualification, application lifecycle, compliance documentation, and pipeline follow-up.

SELECTED TECHNICAL PROJECTS

Agent Control Stack	Local-first TypeScript control plane for policy-gated agent work, exact-action approvals, leases, immutable results, and tamper-evident audit trails.		
Toyota Maintenance	Read-only service-advisor lookup for factory maintenance milestones, due-now guidance, customer print views, and source provenance.		
DealPilot	Evidence-first AI underwriting and decision-intelligence concept built around claim verification, risk, uncertainty, and auditable memos.		

CORE SKILLS

Service Drive Operations	Customer Communication	Revenue Execution	Workflow Design
CRM / HubSpot	AI Workflow Implementation	TypeScript / Node.js	React
SQLite	Policy and Approval Systems	Data Provenance	Risk and Compliance
